RE: Arizona Public Service Company (APS or the Company)  
Docket No. E-01345A-12-0290 ~~E-01345-12-0394~~  
Proposal for Specific REAC-1 Charges for Participating Customers

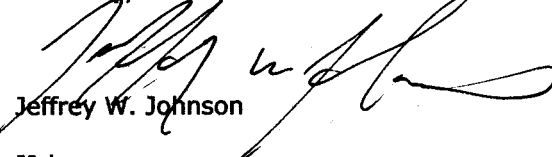

In Open Meeting on January 23, 2013, APS was directed by the Arizona Corporation Commission (Commission) to develop a proposal to implement specific charges and/or surcharge limits within the Company's Adjustment Schedule REAC-1 for those customers that interconnect a renewable resource to the Company's distribution system. In compliance with a previous order, customers receiving an incentive for a renewable installation are required to pay the monthly cap charged to that customer's billing class beginning March 1, 2013 for systems installed on and after July 1, 2012.

In an effort to be consistent with the language approved by the Commission on January 23<sup>rd</sup> for Tucson Electric Power and UNS Electric, APS proposes the following ordering language:

IT IS FURTHER ORDERED that customers who have a renewable installation that is interconnected with APS's system shall pay the average of the REAC-1 surcharge paid by members of their customer class beginning on the day APS's 2014 REAC-1 becomes effective. This requirement shall apply to renewable systems reserved on and after February 1, 2013 and those systems that received an incentive under the RES rules installed on and after July 1, 2012.

If any questions arise regarding this proposal, please call me at 602-250-2661.

Sincerely,

  
Jeffrey W. Johnson
